NOTE FOR: DDCI

Hank -

What Sayre has in mind is to get Secretary Adams cleared for SI. As soon as this is accomplished, someone from his shop will have to hand-carry the memo and attachments to Adams and go over the material with him since he doesn't have COMINT storage facilities.

I suggest you pen a note to the DCI to this effect and tell him that we are laying on priority action to obtain SI clearance for Adams.

Dear Brock:

Attached is a brief memorandum concerning the Soviet fishing violations. As you can see the pressure to meet food demands may conflict with Soviet good intentions, should they be genuine.

Yours,

STANSFIELD TURNER
Admiral, U.S. Navy
